

Here Comes

Tahiti 80

Here comes another day
The bird of pray has finally flown away
I guess I'm doing fine
Thought it took me quite a while
Had a hole in my head
Where my thoughts went dead
Had a hole in my heart
That I needed to mend
Couldn't figure out a role to play
I got it all mixed up along the way
That was another day

I'm sorry for the things I've done
I had so many ups and downs
That was, that was, that was yesterday
Here comes, here comes another day
Now that my weary days are done
I feel like telling everyone
Forget about yesterday
Here comes, here comes another day

Now I'm ready to get back in the game
I'm making sure the rules are not the same
Do you still want me in your life?
I can't be a man without a wife
Tell me what do you say
Here comes another day

I'm sorry for the things I've done
I had so many ups and downs
That was, that was, that was yesterday
Here comes, here comes another day
Now that my weary days are done
I feel like telling everyone
Forget about yesterday
Here comes, here comes another day
