

I'm not sure if I can keep
This secret to myself
So tell me what you wanna do
'Bout this thing between me and you

I know I know
You've got it all under control
It seems to me that you're
Playing with my soul
I know I know
You've got it all under control
It seems to me that you're
Playing with my soul

For you it doesn't matter
For you I should know better
But it really does matter
It keeps getting stronger for me
Can you tell me what you want us to be?

I know I know
You've got it all under control
It seems to me that you're
Playing with my soul
I know I know
You've got it all under control
It seems to me that you're
Playing with my soul
Jest playing with my soul
Jest playing with my soul

I need to find a way
If you could let me know
Then I would let you go
Let you go, let you go

I know I know
You've got it all under control
It seems to me that you're
Playing with my soul
I know I know
You've got it all under control
It seems to me that you're
Playing with my soul
Jest playing with my soul
Jest playing with my soul

I know I know
You've got it all under control
It seems to me that you're
Playing with my soul
