

Let Me Be Your Story

Tahiti 80

You believe everything that you read?
The text messages to magazines
All that you wanted
All that you need
Will all be compromised
Why don't you realize?

You go to work but you're facing a wall
You own that big house by the waterfall
Do you really buy that dream?
There's no direct line that comes to Cloud 9

Don't be silly
We ain't got all the time in the world
You gotta move on
You know I got your back
The Sun is high, so rise and shine

Let me be your story
Let's enjoy while we can
Let me be your story
Just wait and see
You never know where this could end

It's hard to tell what you're waiting for
I wish your mind had an open door
I fell for you like you fell for me
Why the lonely nights?
Why can't we get it right?

Don't be silly
We ain't got all the time in the world
You gotta move on
You know I got your back
The Sun is high, so rise and shine

Let me be your story
Let's enjoy while we can
Let me be your story
Just wait and see
You never know where this could end

You gotta push, push, push the button
You gotta break the glass

Let me be your story
Let's enjoy while we can
Let me be your story
Just wait and see
You never know where this could end

Let me be your story
Let me be your story
Let me be your story
