

# Me And The Princess

Tahiti 80

Cops checking out the club  
All uniforms and torchlights  
My kids will go to international school  
It's better for them  
Princess's dancing, party's started I think

Too much bass, it's deafening  
Tip the guy in the restroom  
My glass's half full but I still need a refill  
Princess's dancing, party's started I think

What you want, just let me get it for you  
What you need I sure know what it is  
It's in your hands won't you try a little harder  
I'm your man, no don't wait any longer  
What you want, just let me get it for you  
What you need I sure know what it is

A randomly coordinated dancer  
Is trying to make ends meet on top of the bar  
They're showing streets of Paris  
In black & white on the giant TV screens  
The princess has gone now  
But the party keeps going on

What you want, just let me get it for you  
What you need I sure know what it is  
It's in your hands won't you try a little harder  
I'm your man, no don't wait any longer  
What you want, just let me get it for you  
What you need I sure know what it is  
It's in your hands won't you try a little harder  
I'm your man, no don't wait any longer

Let's go to your place and see if your curtains match the inside of my jacket  
Let's go to your place  
[4x]

What you want, just let me get it for you  
What you need I sure know what it is  
It's in your hands won't you try a little harder  
I'm your man, no don't wait any longer  
What you want, just let me get it for you...
