

Unpredictable

Tahiti 80

My love, she is
Unpredictable
She goes where the wind blows
Time flies and
And I wonder why
Why she hasn't come back to me
My love, she is
Unpredictable
She'll build me up just to knock me down
I'm like a fine nail
On the wall
What's she got in store for me
I know you think I'm outta my head
That I should just pack up and run away
The traffic light's stuck on red
But I wouldn't have it any other way
My love, she is
Unpredictable
She doesn't care where the river is flowing
If you
Do her good
She might teach you 'bout the birds and bees
My love, she is
Unpredictable
She'll be gone with the sunrise
Time flies and
And I'm thinking a lot
I better run while I'm still free
I know you think I'm outta my head
That I should just pack up and run away
The traffic light's stuck on red
But I wouldn't have it any other way
Now tell me on
Now tell me on
I know you think I'm outta my head
That I should just pack up and run away
The traffic light's stuck on red
But I wouldn't have it any other way
I know you think I'm outta my head
That I should just pack up and run away
The traffic light's stuck on red
But I wouldn't have it any other way
I know you think I'm outta my head
That I should just pack up and run away
The traffic light's stuck on red
But I wouldn't have it any other way
