

# FEELING THIS BAD NEVER FELT SO GREAT

Tai Verdes

Feeling this bad never felt so great

She either slept with fifty people, or she's takin' a break  
She's either tellin' people that she love me or she fillin' herself up with hate

She either out with the girls, at the club shakin' her ass  
Or she's at home, listenin' to Adele, gettin' over me fast

Feeling this bad never felt so great  
Never thought that I'd be happy today  
Now that you're gone and out of my way  
Feeling this bad never felt so great

Ooh-ooh, ooh, ooh-ooh  
Feeling this bad never felt so great  
Ooh-ooh, ooh, ooh-ooh  
Feeling this bad never felt so

I miss the sex, I miss the kiss on the neck  
I miss gettin' triple text, uh  
Netflix askin' what we're watchin' next  
Lovin' you 'til your muscles flex  
I miss the spark, I miss you showin' me all of your heart  
Either we go together or we fall apart  
Every day is hard  
But I get through it  
Doin' your laundry listenin' to music  
You got my hoodie but you can use it  
I got six more and they keep me warm just fine  
I'm learnin' to be with just me  
Up in my head, it gets scary  
Haven't called you back in weeks  
But this is the first time I'm carefree

Feeling this bad never felt so great  
Never thought that I'd be happy today  
Now that you're gone and out of my way  
Feeling this bad never felt so great

Ooh-ooh, ooh, ooh-ooh  
Feeling this bad never felt so great  
Ooh-ooh, ooh, ooh-ooh  
Feeling this bad never felt so

Ever since I left you, I became a new man  
I don't need to slow dance, I can hold my own hand  
It's so hard to let go, we can still be friends though  
It's so hard to let go, we can still be friends though

Feeling this bad never felt so great (So great)  
Never thought that I'd be happy today (Today)  
Now that you're gone and out of my way (Out of my way)  
Feeling this bad never felt so great

Ooh-ooh (So great), ooh, ooh-ooh (So great)  
Feeling this bad never felt so great (So great)  
Ooh-ooh (So great), ooh, ooh-ooh

Feeling this bad never felt so great
