

# On U

Tai Verdes

Love, it's love, ooh-ooh  
It's love, it's-

I'm blind  
Unless you're on top of me  
Comatose, but with you I never sleep  
I'm an asshole, speaking in apologies  
Seventeen brain cells left, but they talk to me  
Hollering, "Treat you better"  
I'm your scarlet letter  
That pin up on your chest right directly in the center  
You my shelter  
Cold weather sweater, ain't no polyester  
Top shelf dopamine seller

We can be all alone  
We can be in airplane mode  
You can water weed I smoke  
And make a home  
Wherever you want  
And I would do it all again  
Never want to go back to friends  
To me, we make perfect sense  
But you know, it all depends on

You became the one I cannot lose  
Who the fuck are you  
Doing everything I want you too  
'Fore I think it through  
'Fore I even know  
Which way I'ma go  
Every kiss is slow  
If you fell in love with me, you wouldn't even know (You wouldn't even know)  
If it hit you, smacked you  
We're only think of after  
You came in my eyesight  
You might get my mind right  
Streets don't even need me  
You could be the reason  
I might just fall in love twice

We can be all alone (All alone)  
We can be in airplane mode (Airplane mode)  
You can water weed I smoke (Uh)  
And make a home (Uh)  
Wherever you want (Yeah, yeah)  
And I would do it all again (All again, all again)  
Never want to go back to friends (Being friends, I don't wanna be friends)  
To me, we make perfect sense (Uh, yeah)  
But you know, it all depends on you  
You, you, on you  
You, you, on you  
You, you, on you  
You, you, on you

You can show me and I know that  
But for once, maybe once, can you hold back?

'Cause you got me going crazy  
If love's a fool, then look at what you done made me

All alone (All alone)  
We can be in airplane mode (Airplane mode)  
You can water weed I smoke (Uh)  
And make a home (Uh)  
Wherever you want (Yeah, yeah)  
And I would do it all again (All again, all again)  
Never want to go back to friends (Being friends, I don't wanna be friends)  
To me, we make perfect sense (Uh, yeah)  
But you know, it all depends on you  
You, you, on you  
You, you, on you  
You, you, on you  
You, you, on you
