

# Take A Chance On Me

Tai Verdes

Life is empty, broken  
Waiting, hoping, floating  
Out in the Pacific Ocean  
The cold one, the cold one  
You're flawless, lawless  
Angel in a Chorus  
Clueless, clawing  
By myself balling  
Falling, fainting, wasn't gonna make it  
But you saved me, uh

Take a chance on me  
To infinity  
We're playing hide and seek  
But I can't break free  
Take a chance on me, take a chance on me  
I burned you to the third degree  
But I gave my blood for the remedy  
Take a chance on me, take a chance on me

I fucked it, crushed it  
Played you like a puppet  
Running 'round town, like I wasn't in love with my blue eyed baby  
Save every gift that you gave me  
Gave my life meaning  
Yeah she's vegan, what a healthy little demon  
When I hear her, I stop breathing  
I stop breathing every time

Take a chance on me  
To infinity  
We're playing hide and seek  
But I can't break free  
Take a chance on me, take a chance on me  
I burned you to the third degree  
But I gave my blood for the remedy  
Take a chance on me, take a chance on me

Take my heart, take my soul  
Take my phone, come back home  
See my change, no more pain  
Take my life  
How could I do this to my white uh  
I really messed this up tonight  
I'm sorry can we fight, just so I can hear what your voice sounds like  
You were right, but I still love you every night  
Every single God damn night

Take a chance on me  
To infinity  
We're playing hide and seek  
But I can't break free  
Take a chance on me, take a chance on me  
I burned you to the third degree  
But I gave my blood for the remedy  
Take a chance on me, take a chance on me

My heart, my soul  
My heart, is all with you  
What am I gonna do
