Ara Ara~

Thanks for another day of hard work! Hater-chan.
I'm being po-po-poi- more motivated than before.
Because I'm having allies as much as they hate.
In other words, everyone in front of the screen~
Thanks for your support!
Thanks to you, I'm not afraid of anything!
Both fans and haters,
Thanks for everything.
I love you!

Regrets. Swelling.

It's just shit, if we don't bother about them.
Tedious. LMFAO. Heart's crumbling.

I was stuck in their swamp,
All night. Oh~ Oh~

They just looked down on me and laughed at me.
Watch closely, because I'm getting stronger.

See? We'll only look at the prospect,
And become the victor! OKAY!
I'm sick of it.
Wimp? It'll never show up in the future anymore.
Final dash towards the direction of your dreams.
"I love you!"
I'll amaze everyone. Suckers.

And of course,
I'm socially inept,
Yet I'm the one who's laughing.
So, what's your point?
As long as I can live freely,
Who's the winner, who's the loser?
I don't give a shit at all~!
