Those terrible days, the swears from others,
Even if you got dumped, the world still moves on.
Being fooled, being abandoned.
Ain't that fine? As long as you're enjoying the moment right now.
It's okay to be unfaithful! Talk about all your true feelings!
Welp, I don't care shit about anything in life!
Make you smile, make you find your dream.
Cuz you aren't having enough "life" yet, aren't you?

If they deny your personality,
Just fake your smile and deceive them.
Though your pain is piling up.
"I can't stand with it anymore."
I know, even though you've never said it.
Those rage and depression that you can't help,
Just leave them to the rhythm!

I won't let it go.
The story of "the bad example".
Destroy the world filled with lies.
Hey, just draw the correct answer of your own.
You smiled, because of my hug sent by the rhythm.

Those terrible days, the swears from others,
Even if you got dumped, the world still moves on.
Being fooled, being abandoned.
Ain't that fine? As long as you're enjoying the moment right now.
It's okay to be unfaithful! Talk about all your true feelings!
Welp, I don't care shit about anything in life!
Make you smile, make you find your dream.
Let's become happy AF together.
