Cry your heart out, comrades.
We're the mightiest, just by breathing!
Even in the shitty hell of a time,
Turn our grudge into a stepping-stone, get them back instantly!
Never give up even if they make a fool of you,
You're shining. No objection.
Putting an end to those lonely days,
Let's head to the world that only belongs to us.

"I'll love you forever." and suchlike,
"I'll be with you forever" and suchlike,
At that point, it's all mouth...
Pretty much all of them left, being in a real mess.
Reality won't change even if we grieve.
Moving like a puppet, reluctantly.
"If so, I'm gonna become who I want to be!"

Alright! Bro and sis!

Staying alive, even facing another breakdown.
We're all cute!
Get lost! Acne and fat,
They're gross, for real!
Non non! Kawaii!
That's why I won't mind!
All good if you can laugh as you like!
We're all friends!

Don't bother those who speak against you.
Enjoy it rather than pushing it.
As long as it's progressing bit by bit, okay!
Gonna spoil you anyways when you're distressed.

"Thank you, always."

Cry your heart out, comrades.
We're the mightiest, just by breathing!
Even in the shitty hell of a time,
Turn our grudge into a stepping-stone, get them back instantly!
Never give up even if they make a fool of you,
You're shining. No objection.
