So weak, so weak,
With false smiles,
Hiding my true heart.

Too painful, too painful,
Unable to say "help me."
Can't hold back the tears

Resent, resent,
Everything in this world.
Wish to escape from "death".

A faint life, a fleeting dream.

Wanna lie at rest for millions of years!
Wow!

Painful memories, no more!
Then, stab into inequality!
Can't run away...
Tho we've turned into adults,
The childishness in our heads continues!
Yeah!

Who's fault made us this way!?
Unremarkable and stubborn,
Timid underachiever.
But raising your voice in my world,
This is happiness.
"Wish it could reach someone."

We're really scared.
"Am I being hated?"
Tension from the surroundings.
Cuz you're so kind-hearted,
Stay the way you are!

Singing this song for you,
Who's about to disappear.
Today's bitterness,
The long way to "The Strongest".
In no rush, I wanna walk all the way with you.
Our imperfectness is what makes us radiant.
Gonna love you warmly and humanly.
It's a pleasure for me to meet you.

Why do we live,
If we'll eventually die?
Being born,
The long way to "The Heaven".
You and I share the same goal.
All your tears and smiles are beautiful.
Let's live the story without any regrets.
