What a shitty day,
It ate and shredded my heart.
Even if we blame ourselves for everything,
See, it'll only come to the "worst".
It's a pain to get outside.
Can't even fake a smile anymore,
All right! Being good for nothing.
No problem!!

Being emo,
Wanna disappear,
Loneliness!
Yet I still want to live.
Always want to love you,
Always want to laugh with you.
No big deal about running away,
Cuz it's too early to say farewell.
Stay! It's okay to live sketchily!
No worries.

Can't feel anything from the wounds of the cut,
Got used to pain.
No idea what will happen in the future.
Terrified if this misery will continue.
By the time I grew up, I noticed,
"The world is overflown with lies and darkness."

Tho I'm always making an effort,
Only the surroundings consistently achieve happiness.
Cry! Cry! Cry!
Ah ~~~ ...

What if I can become as cute as them?
Would the days be easier that way?
Loathing! Pathetic!
Always me, being left behind.
Fuck this!! For real!!!

I'm just a pebble, falling somewhere around.
Wanna use the cheat, a million times.
Escapism won't come to an end.
I'm better off on my own!

What a shitty day,
It ate and shredded my heart.
Even if we blame ourselves for everything,
See, it'll only come to the "worst".
It's a pain to get outside.
Can't even fake a smile anymore,
All right! Being good for nothing.
No problem!!

Being emo,

Loneliness!
Yet I still want to live.
Always want to love you,
Always want to laugh with you.
No big deal about running away,
Cuz it's too early to say farewell.
Stay! It's okay to live sketchily!
No worries.

The distance hinders you
from being the one you wanna be.
There are times when you can't
make your dreams come true.
The reality is ridiculous and ephemeral.
Other than overthinking,
What's important is the present,
where we're living.
Right!?!?!?

No big deal about running away,
Cuz it's too early to say farewell.
Stay! It's okay to live sketchily!
No worries.
