Twinkle twinkle,
Shining like that little star,
Now I just wanna disappear.
Wanna drown in happiness,
Like I won't feel any pain or worries,
And finally be relieved...

Another day talking to the wrist,
It understands my feelings,
Which can't be helped.

Wanna erase all the memories!

But life can't be rerolled□□
"You're always making me proud, just by getting up."
Gonna pamper you like this!

Even if you skip school,
Even if you skive off work.
We will die anyway,
Just live at your own pace.
Let's sing the present moment.

Crying about the dull days,
Don't sit still in the corner.
Cuz even the wounds on the wrist are our friends,
We have no choice but to live.
You and me,
We were born as a protagonist!
Let's live freely, to a greater extent.
Shining moonlight!

"Everything's grim."
I want you to know,
Tho we can't meet right away,
Place of reliance is here for you.
Laugh your head off!
With this melody, kill the depression!
Wish you can do what you want,
No matter how little. Good night!

"If my music is able to color your days,
Even the ones that end with repeating."
Wish you will embrace this dream too,
Tho it might not come true,
The dream about "I love you."

Please don't strain yourself, it's fine to take a rest.
Cuz you've been doing a wonderful job, moving on bit by bit.
Not turning around for some nobody's denials.
Cuz you can always sing with me, right?

That's why, there's nothing to be scared of.
