Let's fly away from anxiety!
You're not alone! No problem!
"Envy", "absurd" and "grudge",
I feel you, cuz we're the same!
Feels like we can even change the future!
Together, let's seize "the best".
One and only, my life,
Live with the style you chose!
Ah ↑ Ah ↓!

Always comparing ourselves with others,
"Got no face or talent, nothing."
Wanna be alone, but it's too lonely to be alone.
Ah... Excessive confusion of the meaning.

Rather than meaningless self-blaming and regretting,
Consider I'm in love with you. All night!
You're not worthless!
Ain't you a god since you're born!?

With your true self, go my way!
Anytime! Hold my hands!
If it ensembles your heart, the birth of a song of you and me.

Let's fly away from anxiety!
You're not alone! No problem!

"Envy", "absurd" and "grudge",
I feel you, cuz we're the same!
Feels like we can even change the future!
