Baby don't cry, escape to the room full of void.
Take drugs and alcohol to obscure the problems.
Already fed up, and the pain just won't heal.
If you hate it, get out of it. Please smile, and tell me.

All trash people should die in the same way.
Don't sweat he small stuff.
It's wonderful to care for others, act like a real adult.
Show up with the bare self.

"I can, but you can't." Double standard, machismo lover.
Also, sex friend who make a love one and the society which breaks people.
Time files, we cannot help. But please don't blame yourself.
If you want to die, find people who also lives painfully and unrewarded.
Comfort each others' pain.
