Every time a guy is replaced, memories come back
I fall in love now with the days we were together
It's selfish of me, things don't go as planned
But, I'm thinking of you from the bottom of my heart
I realized how thankful I should be after we separated
I wonder how much love spilt out and disappeared
"I won't forget"

With just a small misunderstanding
We lost the importance of each other
At that time I wasn't thinking, I just saw your bad qualities
I didn't try to change anything myself
I left all the responsibilities to you
After the breakup, you got a new girlfriend
Going with the flow, next to me was a new man
When I was in love, mornings were boring
But somewhere I was lonely, always someone at the back of my mind
I can't go back, can't sleep, you laugh
"Does that guy make you happier?" I imagine
"After all, it's you" The worst words
I kept yelling in my head, it doesn't reach you!
I realized it was fun
I'm living in the past, I can't do it anymore
If only I could've forgiven you coming home late
If only I accepted everything you asked for
This jealousy is going to explode, please give me advice
Please love each other, get married, and live happily ever after

Every time a guy is replaced, memories come back
I fall in love now with the days we were together
It's selfish of me, things don't go as planned
But, I'm thinking of you from the bottom of my heart
I realized how thankful I should be after we separated
I wonder how much love spilt out and disappeared
"I won't forget"

Full tank of love, unclear weather
