Wake up, those who Suicider  
Snap out of it, there's no limiter  
Let's kill the stress from sleep paralysis  
Dance! Dance!  
Punch the worries with music  
Future will still come if I become emo  
Just cry and wallow?  
I won't forgive! Wanna go frenzy!

Couldn't get closer to ideal  
Don't even know the meaning of being alive  
Screwed up even if I started a relationship  
Series of failures, mentally unstable  
Music is the only thing that won't betray  
Even when it's distressing and unsatisfying  
It's the place that always provides nothing  
But encouragement and sweet happiness  
That makes me dance

We're different collor but the same  
Those who came, we all have the same feeling  
No problem at all, even if we become idiots forever  
Let's blow away the unnecessary emotions

Welcome back, Takayan listener  
It's unseemly to act strong  
Trolling but nice try  
I ain't afraid of anything

Wake up, those who Suicider  
Snap out of it, there's no limiter  
Let's kill the stress from sleep paralysis  
Dance! Dance!  
Punch the worries with music  
Future will still come if I become emo  
Just cry and wallow?  
I won't forgive! Wanna go frenzy!
