A disaster! Everyone's being chased by the past,
Because of the trauma.
Tho we'll die soon or later,
We're living desperately.
Ain't that foolish!
I'm crying,
Detest everything!
Until dawn breaks.

Such an unreasonable world,
Don't you wanna break it?

"It's as painful as getting old,
That I can't laugh"

Don't compare yourself with others!
Cuz you're already shining,
Butterflies in my stomach~
(Uh-huh! Uh-huh!)

I don't even give a shit to the taunts,
Let's go! Run run run!
Dance as you like, pour your heart out.
Things like "Hard times",
Let's burn it~!

(Abandon, listen!)

I'm just an underdog,
Yes, but them underdogs,
Will get over and live,
When they're covered in wounds and know the reality.

A life that can't be helped,
Laughing while saying "I'm dying, lmfao."
Let's take a step forward!

Not afraid of anything.

"Cuz I'm nobody, LOL"

It doesn't matter whether you're man or woman,
Hey, gather around,
Act stupid.
Hit The Night!
Even when envy and hatred drives you into madness,
"Let's enjoy and live."
It won't come to an end.

For me,
You're more precious than an angel.
Please do whatever you like,
Without hesitation.
Also, wear any clothes you like, too!

I mean, by the time that we were born,
We're already the winners, right?
As we're alive anyway,
Let's paint it with our own color,
You're super cute,
Extremely cool,
First-class gentle!
Self-affirmation Burst!
Freaky and outrightly, bounce!

The grilled squid that you cut when you're in mood swings.
Headpats, "You did your best."
Wanna eat it up for you.
Even if you're being dumped and motivation sinks,
Get over it, don't be shy!
Have fun today

It doesn't matter whether you're man or woman,
Hey, gather around,
Act stupid.
Hit The Night!
Even when envy and hatred drives you into madness,
"Let's enjoy and live."
It won't come to an end.

It doesn't matter whether you're man or woman,
Hey, gather around,
Act stupid.
Hit The Night!
Even when envy and hatred drives you into madness,
"Let's enjoy and live."
It won't come to an end.
