Being denied, always
Leave me alone!
Wanna do everything I want! (Uh-huh!)
Got the meaning of living in my hands,
Tried to live with the pain,
Yet tedious~! (Uh-huh!)
Pump it up, self-affirmation.
Don't be deceived by those fucking mobs!
Master your egotism!
Proactively and randomly, let's go!

Couldn't finish what was planned,
Been for nothing. All day.
Wanna laugh,

Yet that scum is messing up my brain, again.
All alone...
Unable to swallow my pride.
Escalating the situation.
The surroundings back away.
Swearing is the only hobby.
Betting on the afterlife.
Ahhh!

Cracked screen like a my heart.
Lust, gluttony, worries that cross me.
No matter how,
There's time I wanna run away.
There's time I must confront and battle.

Live a blissful life,
With the last strength reserved for death.
"They mocked and insulted me."
Don't wanna lose.
Tell me whether you're still hanging on today,
Hold my hand. Perfect!
You're not alone!
