

## Do That

Take 5

Something about the way you strut your stuff  
Makes me wonder how it feels to be with you  
Girl I wanna touch you  
Something about your eyes that speak to me  
If anyone awakes the freak in me, you do  
Girl I wanna freak you  
And from over here girl, I still feel your vibe  
And you're makin' my body feel so alive  
And I can't wait til I get you in my ride  
Can we get it on (can we get it on)  
Oh oh

I can see you really wanna play  
There's no reason why we gotta stay  
Baby swing my way  
Do that, do that  
Tell your friends that we gotta go  
Where we're goin' they don't have to know  
Baby swing my way  
Do that, do that, do that

I'll make ya wanna do things  
Try new things  
That you never did before  
We could take it to the movies, the jacuzzi  
Girl I'm always good to go  
The way your shakin' your body  
Girl you got me  
So come on and start the show  
Come on, come on, come on, come on, come on, ohh  
And from over here girl, I still feel your vibe (still feel your vibe)  
And your making my body feel so alive (feel so alive)  
And I can't wait til I get you in my ride  
Can we get it on (can we get it on, get it on, can we get it on)

I can see you really wanna play  
There's no reason why we gotta stay  
Baby swing my way  
Do that, do that  
Tell your friends that we gotta go  
Where we're goin' they don't have to know  
Baby swing my way
