

Beautiful World

Take 6

I look around and i see
Heartache, a disaster, a strange calamity
I wonder how it's gonna be
Will it all end in some spectactical galacticality
One must consider what one believes
Evolution or creation
I choose to believe in God
So the end is not a period but a pause
So just imagine this with me

---WHAT A BEAUTIUL WORLD THIS WILL BE---
---WHAT A GLORIOUS TIME TO BE FREE---
---WHAT A BEAUTIFUL WORLD THIS WILL BE---
---WHAT A GLORIOUS TIME TO BE FREE---

They said i walked the streets of gold
Never a goodbye, and never ever growin old
They said with my old eyes i'd see
The one who died to make it all actuality
You tend to love a smile when you've cried a lot of
tears
Walk a little bolder when you're free from all your
fears
It's a world where love will always flow
Now i think i really wanna go

Before you can see it
You've got to believe
So kick back and relieve your mind
On the milky way trans-universal express
Soon we'll be ready to fly

Can you imagine being happy all the time
It will be a day of constant sunshine
It'll be a day, never ever say goodbye
Always say howdy howdy
Are you ready to fly?

No more heartache and no more pain
No more sadness and no more shame
No more fears and no more tears, no
No more hate, i just can't wait
No i can't wait no
It's gonna be a beautiful world
oh...oh
Beautiful world, beautiful world
