

Make It Stop

Take Care

Everything
Is crumbling
Before my eyes

And every time
You look my way
There's so much I can't say

Nothing hurts
Like you do
And I don't want to say that
But it's true

And I turn around
And everytime I do you're getting closer
Getting closer to each other and all I can do is watch
It's like a car crash I can't look away from
And everytime I turn around
The pit in my stomach gets a little bit deeper
I wanna throw up
I feel like throwing up
And it's not the alcohol
That has nothing to do with it
At all
It's you and him
It's you and him

There's nothing I can do
There's nothing I can say
To get you to look at me
To look my way

You're staring in his eyes
And I can see the sparks fly
And all I want to do is scream
And start to cry
I just want to make it stop
I just want you to stop
I just want to look away
But I can't
I can't make myself look away
Even though I need to
It's like everything's going wrong
I just need a way
To make everything stop
'Cause everything's going wrong
So just make it stop
I just want you to stop
I wish I could look away
I wish I wasn't here
Watching you
Whisper in his ear
