

Please Don't Leave

Take Care

I'll make it out alive
If I just shut my eyes
So I can't see him talk
To the girl I wish was mine
You're starting to drift
Out of my reach
Please don't leave
Please don't leave

Do I hate you?
Do I love you enough to let you go?
I can't spend another year alone
And do you hate me? It seems like lately
You've been getting bored
I can't take it anymore
