

## Believe

## Take That

Took a walk around the block  
Didn't stop, all this space  
It makes me want to see your face  
Such a beautiful place  
When I met you last I was at a loss  
Life goes on  
Breakin' hard into the ground  
It was you that I found

I can run if you are callin'  
I can fly if you are fallin'  
I can break through every wall they build for me  
I can see the sun is risin'  
I can see your eyes are smilin'  
I will hold onto the things that I believe  
Believe

Shut my eyes I feel alive  
Hold me back  
In our hearts, we'll wear the scars  
Of the wilderness years  
Give me one more night at last  
Filled with joy  
When your guard is down  
And you're hand in hand  
Will you understand how lucky we are  
It's been a very long day

I can run if you are callin'  
I can fly if you are fallin'  
I can break through every wall they build for me  
I can see the sun is risin'  
I can see your eyes are smilin'  
I will hold onto the things that I believe

I can see your eyes are smilin'  
I will hold onto the things that I believe  
Believe

Tell me now if this is real  
Close your eyes and you will see  
Tell me now won't let me go  
Let me know if you believe

Tell me now if this is real  
Close your eyes and you will see

Tell me now won't let me go  
Let me know if you believe
