

Come On Love

Take That

Looks like the sun has gone
Looks like the rain is here
Maybe we tried too hard
And what we had has disappeared
We gave it the same reaction
In between the heat and passion
But back in these distant plains
I only want to see your face

Come on, love
Come on, love
Just show your face
'Cause we're giving up
Come on, love
Come on, love
Release yourself
'Cause we've given enough

Come on, love
Come on, love
Just show your face
'Cause we're giving up
Come on, love
Come on, love
Release yourself
'Cause we've given enough

What are we asking
Asking to start again
This other world we're trapped in
Feels like it's coming to an end
Emergency lights are flashing
Against every wall we're crashing
Alone in these distant plains
I just want to see your face

Come on, love
Come on, love
Just show your face
'Cause we're giving up
Come on, love
Come on, love
Release yourself
'Cause we've given enough
We give our hearts, give our souls
Until some [?] we can [?]
So come on, love
Come on, love
Bring us back together now

So come on, love
Try and lift us higher
Our last hope, you know what to do
Come on, love
Even if you're tired
I'll stand by yours
Come on, love

Don't you, don't you forget about me
Don't you, don't you forget about us
(Don't you, don't you forget about me
Don't you, don't you forget about us)
Forget about me, forget about us
Come on, love

Come on, love
Come on, love
Just show your face
'Cause we're giving up
Come on, love
Come on, love
Release yourself
'Cause we've given enough

Don't you, don't you forget about me
Don't you, don't you forget about us
So come, on, love
Come on, love
(Don't you, don't you forget about me
Don't you, don't you forget about us)

Come on, love
Come on, love
Come on, love
Come on, love
Oh, come on, love
Come on
Say you'll be back some day
