Give You My Love

Take That

When the walls are closing in And you're standing in the dark Don't know where you can begin All the pressure on your heart Heavy load inside your head No more colour in the sky I'll be lying in your bed Happy being here until I die

I see light just around the corner
Make sense of it all when we're together
I see you surrender put your hands up
You'll be safe with me

I'm going to give you my love Know that my affection I'm going to give you my love Comes with my protection I wanna give you my love You are my addiction I wanna give you my love I can't give you up I'm gonna give you my love Know that I will listen I'm gonna give you my love My love no condition I wanna give you my love All of my decision I wanna give you my love I can't give you up

We're gonna make it to the end Even longer if we try We gonna find a place to land There'll be danger but we will survive

I see light just around the corner Make sense of it all when we're together I see you surrender put your hands up You'll be safe with me

I'm going to give you my love Know that my affection I'm going to give you my love Comes with my protection I wanna give you my love You are my addiction I wanna give you my love I can't give you up I'm gonna give you my love Know that I will listen I'm gonna give you my love My love no condition I wanna give you my love All of my decision I wanna give you my love I can't give you up

Don't ever think about that
I will never hold you back
Spread your wings butterfly
Cause I'll be here till the day I die
Till the day that I die

I'm going to give you my love Know that my affection I'm going to give you my love $% \left(1\right) =\left(1\right) \left(1\right) \left($ Comes with my protection I wanna give you my love You are my addiction I wanna give you my love I can't give you up I'm gonna give you my love Know that I will listen I'm gonna give you my love My love no condition I wanna give you my love All of my decision I wanna give you my love I can't give you up
