

She Said

Take That

My love, was filled with trouble
With indecision, therapy and pain.
You know that my love
It was going no where
It would have driven any normal man insane

Oh, but then she said she wanted to dance,
She said she wanted to move,
She said she wanted a good time,
Girl I think I love you

My love, as bad as fast food,
As low as two steps in a canvas hat,
You know that my love was one long hangover
Ain't got no houses or no money or no land

Oh but then she said she wanted to dance
She said she wanted to move
She said she wanted a good time
Girl I think I love you

Shake it (shake it)
Everybody now shake it (shake it)
Everybody just step to the right
Jump up turn around and shake it (shake it)

Everybody now boogie
Everybody now boogie
Everybody put your hands in the air
Turn around everybody let's boogie

Oh my life, was filled with trouble,
With indecision, therapy and pain

You know that my love,
It was going no where,
It would have driven any normal man insane

Oh but then se said she wanted to dance
She said she wanted to move
She said she wanted a good time
Girl I think I love you

She said she wanted to dance
She said she wanted to move
She said she wanted a good time
Girl I think I love you
