

## Where We Are

## Take That

We raised the bar  
Turned and started following the brightest star  
And maybe on that road ahead we'd find out  
Who we really are

Made sacrifices  
Never put our weapons down, just kept on fighting  
When everyone said no, that's when we'd start to go  
How did we know?

Just look at where we are  
The years behind us  
We've come so far  
Oh  
Above the universe  
Standing here, looking back at Earth

We heard the call  
The day arrived, we had to build a higher wall  
The nights we all came knocking but no one was home  
No one's at home

We could have stayed in bed  
Not real and just pretend  
But that was never enough  
We wanted to see the sunset

Just look at where we are  
The years behind us  
We've come so far  
Oh  
Above the universe  
Standing here, looking back at Earth  
Whoa  
Run out of luck sometimes  
We're only human  
We've walked the line and seen it all  
Filled up our beating hearts  
We're only human  
We're where we are  
Whoa  
Whoa  
Whoa  
Whoa

Is it a place or a state of mind?  
I took a step and decided to climb  
Looking out into space  
Let the moon light your face  
It's alright, it's alright, it's alright  
Whoa

Just look at where we are  
The years behind us  
We've come so far  
Oh  
Above the universe

Standing here, looking back at Earth  
Whoa  
Run out of luck sometimes  
We're only human  
We've walked the line and seen it all  
Filled up our beating hearts  
We're only human  
We're where we are  
We're where we are, oh  
We're where we are, oh

We're where we are  
Hmm  
Hmm  
Where we are
