

She's Like Whatever

Take The Crown

Now lets start this off on the right page
So it doesn't get confusing
There are lots of words not worth using
This should be good for the both of us
We'll get a lot of what we need
Without a lot of love

Are we with the ones we lost tonight
They're only good enough to be alright
As we say
Your heart my hands we'll give it up

Are we with the ones we lost tonight
They're only good enough to be alright
As we say
Your heart my hands we'll give it up

Now let me dim the lights
Cause I'm a heartless romantic
And this is as smooth as I get
You and I are moving along
Quite well this bargain is strong
Don't forget please, don't forget please
We are temporary

Are we with the ones we lost tonight
They're only good enough to be alright
As we say
Your heart my hands we'll give it up

Are we with the ones we lost tonight
They're only good enough to be alright
As we say
Your heart my hands we'll give it up

Don't hold me closely until the morning comes
We wont regret this at all, we won't regret this at all

Are we with the ones we lost tonight
They're only good enough to be alright
As we say
Your heart my hands we'll give it up

Are we with the ones we lost tonight
They're only good enough to be alright
As we say

Your heart my hands we'll give it up
Are we with the ones we lost
We wont regret this at all, we won't regret this at all
