

Cedar Trees

Taken by Trees

do you ever think upward to God?
i remember seeing settlers growing tall
as we passed (???) scenery
i blushed from its noble beauty

your hands were fixed on to the wheel
to convey me across this country

and you drove my pain away
left it hanging among those cedar trees
yes you drove my pain away
left it hanging among those cedar trees

will you will you will you be my friend?
even though love came to an end
you don't have to decide just yet
take your time on meshing me in your mind

i will wait so patiently
you know very well that isn't much like me

you drove my pain away
left it hanging among those cedar trees
yes you drove my pain away
left it hanging among those cedar trees
