

As We're Falling Down

Takida

Once in a while
I cannot sleep for old times
Reminds me of being bad
Searching for scapegoats but the blame is mine and

I'm on the outside nothing in
Let's spin me around as we falling down

Fall out it's in your mind
Into the rage I can hear that sound
Cry out we can't be found
Into the that hate as we falling down

I think that's over you don't see me
You just walk on by
You told me it's over I cannot take it
It's live or die

I'm on the outside nothing in
Let's spin me around as we falling down

Fall out it's in your mind
Into the rage I can hear that sound
Cry out we can't be found
Into the that hate as we falling down

It's the way we fall out
It's in the heart of all of mine
It's in the way we falling down
It's in the way

Fall out it's in your mind
Into the rage I can hear that sound
Cry out we can't be found
Into the that hate as we falling down
As we falling down
