

Better This Time

Takida

Once again I'm here but gone
And you've been hurtin' alone
For a long, long time
You're sleeping on the floor again
With the picture of a long-lost friend
That's me before the crime

All these words I say
Don't mean anything, I realize
Cannot make you stay
I'll be better this time
I'll be better this time, to you

Sometimes I don't care at all
This could be the final call
For the pain in your land to die
Are we part of a plan?
I wish I could understand
Why I am who I am

All these words I say
Don't mean anything, I realize
Cannot make you stay
I'll be better this time
I'll be better this time, to you
Ooh, I'll be better this time
I'll be better this time, to you

You're an idiot
But give me one more try
Now go to hell (go to hell)
Wait, please be mine
I'm an idiot
I'm an idiot
I'm an idiot

All these words I say
Don't mean anything, I realize
Cannot make you stay
All these words I say
Don't mean anything, I realize
Cannot make you stay
I'll be better this time
I'll be better this time, to you
I'll be better this time
I'll be better this time, to you
Oh, I'll be better this time
I'll be better this time, to you
