

In the Wake

Takida

See the bitter face of the enemy
Stare in the eyes of the future, you'll never see
Creep into the fire
It's out of control, redefine
[?]
Feel the fire [?] humanity
Wake up, smell like coffee
'Cause we're running out of time

We lie in the wake
No one to pick up our pieces
It's always the same
And I'm on my way

I give it all my strength now to break the chain
Sick, sick, sick of the same lies [?]
[?]
I'm gonna be faded out of sight
Creeping into the night
Hearing [?] I will fight
Every inch of resistance
[?]
I'm never coming back so just let me go
I am gone

We lie in the wake
No one to pick up our pieces
It's always the same
And I'm on my way

Take the hits and turn them to energy
Find the answer, find who you wanna be
Listen to me closely
Or you'll be burning into flames
[?] for the reckoning
[?] no more escaping it
This will be the last time
You hear me say it
No more lies

We lie in the wake
No one to pick up our pieces
It's always the same
And I'm on my way
