

## In time

Takida

Maybe you cannot see  
Just what you're doing to me  
Through kaleidoscope eyes  
Maybe you're someone else  
Someone who'll never seek help  
Time to swallow your pride  
Time to dig up the lies

I broke my back to make it easy  
For you to throw it all away  
My life, my sacrifice, believe me  
In time, again

I know you've had it rough  
We've all been starved of the good love  
The pieces fall into place  
But still that's no excuse  
The way you long to feel used  
The things you can not erase  
Now you want my praise?

I broke my back to make it easy  
For you to throw it all away  
My life, my sacrifice, believe me  
In time

It's been a long ride through the never  
I cannot see how you will survive from the agony flame  
No guilt on me whatsoever and nothing in between  
I alone will still remember  
How you crashed all your dreams and threw them all away  
You walk through broken glass and ember in eternity, yeah

I broke my back to make it easy  
For you to throw it all away  
My life, my sacrifice, believe me  
I'll be the last one you betray

I broke my back to make it easy  
For you to throw it all away  
My life, my sacrifice, believe me  
In time
