

My Dove

Takida

I miss the times we had
It will never be the same
I could still feel your touch
But there's no more crucial flame

Sad eyes
Watching me
Soul sigh
Empty

You failed me
You made us blind
Paint lies on the waterline
You failed me
You let me down
Sail away

No more tears
No more agonizing calls
Victim never again
I will embrace that cold rain fall

Heartless
Just bring
Fly now
And break free

You failed me
You made us blind
Paint lies on the waterline
You failed me
And you are in denial
Sail away

There goes my only wonder
I felt a rain that made it go away
The dirt is painting your skin, love
You are lying here
Painting your skin, my love

Sad eyes
Watching me
Soul sigh
Empty
Heartless
Just bring
Fly now
Break free

You failed me
You made us blind
Paint lies on the waterline
You failed me
And you are in denial
Sail away

There goes my only wonder

I felt a rain that made it go away
The dirt is painting your skin, love
You are lying here, yeah

There goes my only love
I felt a rain got to make it go away
The dirt is painting your skin love
You are lying here
There goes my only wonder
