

Sacred spell

Takida

We're trying to play a game for two
And we're outside the box, killing time
I don't know what to say, I still care for you
And sometimes I wish you were mine

The fantasy aches and it's so very far
Not even the pills can get rid of
The feelings I got and this invisible scar
You can't rely on the labor of love

The epic skyfall turns to gray, stay

It's been a long long ride
With not too much at stake
I tried to hold you all the way
Nothing without pride
And we will never break
The sacred spell

The cold weather strikes, the winds are screaming out
And all I can think of is you
I'm never scared because you gave me something sound
But I don't know what I'm supposed to do

The epic skyfall turns to gray, stay

It's been a long long ride
With not too much at stake
I tried to hold you all the way
Nothing without pride
And we will never break
The sacred spell

We're trying to play a game for two
And we're outside the box, killing time
I don't know what to say, I still care for you
And sometimes I wish you were mine
