

## Stay in the rain

Takida

I don't see it will I ever find,  
You always say I got special mind  
I never want it to be that way  
I count my days from a better time  
I feel more certain I feel alive  
I never been like I've been today

When your depth comes crawling  
I don't wanna go back  
I hear your whispers, you calling  
I am stuck in time (in time)

My mind is failing on the other side  
I'm in denial I don't wanna die  
I hope these pills, no , by gone by gone  
I feel the strength with my special one,  
When I'm with her I'm not ever down  
When I'm with you, I'm not ever alone

When your depth comes crawling  
I don't wanna go back  
I hear your whispers, you calling  
I am stuck in time

Stay in the rain, I don't mind I wanna live  
Hit by the pain, It's alright I wanna live

Whatever you feel, wherever you go  
I'll be there beside you, I never let go

Whatever you feel, wherever you go  
I'll be there beside you, I never let go

Stay in the rain, I don't mind I wanna live  
Hit by the pain, It's alright I wanna live

Stay in the rain, I don't mind I wanna live  
Hit by the pain, It's alright I wanna live

Ooo... Ooo...Ooo...Ooo...  
Stay in the rain...
