I don't see it will I ever find, You always say I got special mind I never want it to be that way I count my days from a better time I feel more certain I feel alive I never been like I've been today

When your depth comes crawling
I don't wanna go back
I hear your whispers, you calling
I am stuck in time (in time)

My mind is failing on the other side
I'm in denial I don't wanna die
I hope these pills, no , by gone by gone
I feel the strength with my special one,
When I'm with her I'm not ever down
When I'm with you, I'm not ever alone

When your depth comes crawling
I don't wanna go back
I hear your whispers, you calling
I am stuck in time

Stay in the rain, I don't mind I wanna live Hit by the pain, It's alright I wanna live

Whatever you feel, wherever you go I'll be there beside you, I never let go

Whatever you feel, wherever you go I'll be there beside you, I never let go

Stay in the rain, I don't mind I wanna live Hit by the pain, It's alright I wanna live

Stay in the rain, I don't mind I wanna live Hit by the pain, It's alright I wanna live

000... 000...000...000... Stay in the rain...
