

Third strike

Takida

Let's stay together my codependent friend
Into the deepest of black holes

Conform into submission
Spark up the ignition
Self-destruction
My new home from home

Am I drowning?
It's impossible to breathe
No one's counting
But my third strike is staring at me

Let's break the tether
Goodbye, I'm on my way to self discovery
But who am I kidding?
You'll do my bidding
Tighten your deadly hold on me

Conform into submission
Spark up the ignition
Self destruction's
All I'll ever know

Am I drowning?
It's impossible to breathe
No one's counting
But my third strike is staring at me
Staring at me

All I'll ever know

Am I drowning?
It's impossible to breathe
No one's counting
But my third strike is staring at me

If I fight it
My anxiety explodes
If I hide it, then I guess that they'll never know
