

Lightbringer

Taking Back Sunday

You try not to think about it
'Cause you don't know what to call it
When those banshees in your head coming to collect
Five o'clock 'round dinner dancing in the mirror
Caught them kissing on the tail end of the truck
You were happy once

Or am I making it all up? Making it all up
Am I making it, making it, make it up

You wore your hair back, back when
Not sure now, had to have been
Skin tight, where's that life?
I can't remember, when we crossed that line
I can't remember, when we crossed that line

Oh, it's just like you, it's just like you said
Hell is what you're gonna get
Thinking only about you only
How could you not have been in love?
How could you not have been in love?

Or am I making it all up?
Am I making it, making it, make it up

You wore your hair back, back when
Not sure how, had to have been
Skin tight, where's that life?
I can't remember, when we crossed that line
I can't remember, when we crossed that line

Are we making it, making it, make it up, yeah
Are we making it, making it, make it up
Make it up, yeah
We make it work

You wore your hair back, back when
Not sure how, had to have been
Skin tight, where's that life?
I can't remember, when we crossed that line
I can't remember, when we crossed that line

Are we making it all up?
Are we making it all up?
Making it, making it, make it up
Are we making it, making it, make it up
