

Back In Time

Tal

Sitting back, can't stop wondering
If I did well or missed anything
What if tomorrow could come back again
What do change or could stay the same

I wonder how it would be
To go back in time
How wonderful it would be
To go back in time
I wonder how it would be
To go back in time
How wonderful it would be
To go back in time

Clock is tickin', move fast
Watch it passin' by, time flies
Make you wanna take back every second
So you wanna bring back every second
To relieve best moments
With families, best friends
Gone ones, lost ones
Ask him to come back home
I ain't tryin' to be smart or give out a lecture
Just take a picture of the past in the future

So I could decide what to choose
Never having pain, no no I refuse
Made me do what I had to do
It made me strong and now I think I got all the moves

Still got me wondering
What could change or what would still remain

I wonder how it would be
To go back in time
How wonderful it would be
To go back in time
I wonder how it would be
To go back in time
How wonderful it would be
To go back in time

Bringin' it
Bringin' it
Bringin' it back
Livin' it
Livin' it
Livin' it like, like old times
Wondering wondering wondering how it would be
To go back way back in time

Bringin' it
Bringin' it
Bringin' it back
Livin' it
Livin' it
Livin' it like, like old times

Wondering wondering wondering how it would be
To go back way back in time

I wonder how it would be
To go back in time
How wonderful it would be
To go back in time
I wonder how it would be
To go back in time
How wonderful it would be
To go back in time

How wonderful
How wonderful
How wonderful
How wonderful
