

Not So Serious

Tal

Just like a child, I'm curious
Feel like I'm playing all day
It's just not that serious
Just feel like taking a break
From the problems I got
No more thinking about how
Or when and what I should do
But this feelin' I got
Gotta get it our time to play
And act like a fool

I'm just feelin' afraid to speak this moment with you
And I never give it a time just to live this moment with you

I'm gonna live life, live it up
Let me put a smile on your face
(Let me put a smile on your face)
I'm gonna live life, share it all
And maybe I can give it away
(Maybe I can give it away)

I wanna be spontaneous
Not hearing what they gonna say
It's just not that serious
Don't think I'm running away
I don't spend enough time
Tryin' to figure out all the things
I think I should do
So now it's about time
That I let it out, play pretend
Like a kid would do

I'm just feelin' afraid to speak this moment with you
And I never give it a time just to live this moment with you

I'm gonna live life, live it up
Let me put a smile on your face
(Let me put a smile on your face)
I'm gonna live life, share it all
Maybe I can give it away
(Maybe I can give it away)

Like a kid would
Like a like a kid would do
Like a kid would
Like a like a kid would
Like a kid would
Like a like a kid would do
Like a kid would
Like a like a kid would

I'm just feelin' afraid to speak this moment with you
And I never give it a time just to live this moment with you

I'm gonna live life, live it up
Let me put a smile on your face
(Let me put a smile on your face)

I'm gonna live life, share it all
Maybe I can give it away
(Maybe I can give it away)

Like a kid would
Like a like a kid would do
Like a kid would
Like a like a kid would
Like a kid would
Like a like a kid would do
Like a kid would
Like a like a kid would

Oh
Give it a way
