

## Fall Back

Talib Kweli

These silicone rappers acting real but  
Light them up like blunts gotta spill guts  
Never mind they still acting tough  
My T-shirt breathe corporate corporate magazine steal some  
Fuck ever heavy metal shit real pop  
You been pop because you daybueing real flop  
Cops trying to kill guys but killed shot  
Exploring every options while the water still trying to feed cops yeah  
Everything a vibe but it's still the same  
Only the real remain when I kill the game  
Running over the niggas in a renter hearse  
Then I erks tire marks tire marks  
Wait that's a Kendrick verse  
None I ain't have to steal that  
What's left when all of your layers are peeled back  
Got a mind like a steel trap  
And then fill it to the brim with real raps

Yep you wanna fall back (fall back)  
You wanna fall back (fall back)  
You wanna fall back (fall back)  
If you the real shit you really real shit  
Drop it let me feel shit if it's really real  
If it's really real drop it let me feel some  
If it's real drop it let me feel  
If you the real shit you really real shit  
Drop it let me feel shit if it's really real  
If it's really real drop it let me feel some  
If it's real drop it let me feel

Up the money tell them to fall back  
Fuck the money we coming to north black  
The cops trying to kill us we can't ignore that  
Some rally some riot  
Government selling up bull shit and we buying  
Giving us all sort of drugs and we try it  
I've never been to a court with a judge that ain't bias  
Look at the conviction rate I got the colour that the system hate  
Wait face facts as they face us the racist trying to erase us  
Beat us to the truth then erase us  
History is a high story Knee high  
Don't watch exodus no one is our story  
Rearrange the past no one is our glory  
Not even the colours of my brothers will ride for me

Yep you wanna fall back (fall back)  
You wanna fall back (fall back)  
You wanna fall back (fall back)  
If you the real shit you really real shit  
Drop it let me feel shit if it's really real  
If it's really real drop it let me feel some  
If it's real drop it let me feel  
If you the real shit you really real shit  
Drop it let me feel shit if it's really real  
If it's really real drop it let me feel some  
If it's real drop it let me feel

Hip hop is still evolving from stealing vaults  
Some of these real life shit don't appear in blogs  
Rap niggas soft this ain't a pillow talk  
At the club ain't saying nothing when they kill us all  
Ah silence but you say you real ya that's how you feel huh  
Ey yo fro real bro riders better watch who you steal from  
A true steal gun tighter than the steel drum  
We on that crazy steel drum  
Smoking that B real what the fuck you feel one  
Wow you niggas acting real young  
Stop that recording that baby beef shit feel tongue  
Yea no time for your hard feelings  
Blood is in the ghetto my socks is like curry shillings  
Un apologetic as fuck when they say my name  
Open methic in the truck men I bring my pain

Yep you wanna fall back (fall back)  
You wanna fall back (fall back)  
You wanna fall back (fall back)  
If you the real shit you really real shit  
Drop it let me feel shit if it's really real  
If it's really real drop it let me feel some  
If it's real drop it let me feel  
If you the real shit you really real shit  
Drop it let me feel shit if it's really real  
If it's really real drop it let me feel some
