

# Prego

Talib Kweli

Eh, it's Ragu nigga  
Put it on your pasta like Prego  
Because it's in there, Prego sauce  
I said it's in there, Prego sauce  
I said it's in there

People want me to preach cause that's where heaven begin  
People want me to teach, unless the lesson's for them  
This message is in the form of a song I had to arrange it  
You bangin' it through the speakers for maximum entertainment  
Wait a minute, step back a bit  
I highly doubt that your perception is accurate  
My conception immaculate

You know it's in there  
Ayo, we out here  
And if the party going on you know we in there  
I'm so sincere  
Quit your talk about 'I've been here'  
Way before he showed up, let's get clear  
Ayo, we out here  
And if the party going on you know we in there  
I'm so sincere

I don't really know where I'm going, but where I have been  
Everybody double as predators or assassins  
It's tragic how we love this life, fatal attraction  
A metaphor like Reservoir Dogs I'm like a master  
You make me wanna cut off my ear the way you rappin'  
The black van Gogh to pick up the ones active  
In the movement, got 'em using every drug you can imagine  
Dyin' like diabetics who diet without the saccharine  
That tale thinking is sweet, until it happen  
Standing ovation on the street they on their feet  
When the shooters get to clapping  
5 star forest, the murder go  
The fat lady singing in curtain closed  
My getaway car is convertible, I'm choppin' the top off  
This rap dudes faker than knock-offs

Because we in there  
Ayo, we out here  
And if the party going on you know we in there  
I'm so sincere  
Quit talkin' about 'I've been here'  
Way before he showed up, let's get clear  
Ayo, we out here  
And if the party going on you know we in there  
I'm so sincere

Sling lingo, watch the thing go fall, new single, bingo  
Ringo Starr, more Pringles  
Which leads to more dips  
Adrian Peterson all day, more whips  
Seen it before like déja-vu, so sincere  
Rooftops, skylines, poolside swim wear, we in here  
I'm whisperin' in Slim's ear like "I can be your hero"

Indie 5-0-0 see the reason is [?] the seasoning  
Always show love, never deceiving them  
He can get my vote, we believe in him  
He can get it, I got it, it mean exotic  
2 seated the exact color is hypnotic, in fact  
Triptronic, sit back  
Sit on to the shack, shit's honored, it's rap  
It's chronic, automatic, it's organic

I said it's in there, I said it's in there  
I said it's in there, I said it's in there  
I said it's in there

I said it's in there, I said it's in there  
I said it's in there, I said it's in there  
I said it's in there

I said it's in there, I said it's in there  
I said it's in there, I said it's in there  
I said it's in there

I said it's in there, I said it's in there  
I said it's in there, I said it's in there  
I said it's in there

I said it's in there, I said it's in there  
I said it's in there, I said it's in there  
I said it's in there

I said it's in there like the love that's in the air  
Living for our life, got something to share  
Still tryna build, progress, I don't regress  
Cut through the BS  
Speak through the beak of a phoenix  
Fly, schemin' on the sadness  
My language dangerous, vandal, damage  
Dismantle, break free from the baggage  
Expand across the planet's canvas  
Catch the buck with the lid on the jar  
Or hold it in your hand, so you can pick it apart  
If you a listen at heart, you would be liftin' your guard  
Grew a couple of fins  
Try to swim with the sharks  
The worth ain't based on if the dogs chase it  
Bark till you barkin' yourself out the basement  
Spread the word, my voice is spacious  
Taste the Prego  
It's in there  
And now you pregnant

You know it's in there  
Ayo, we out here  
And if the party going on you know we in there  
I'm so sincere  
Quit your talk about 'I've been here'  
Way before he showed up, let's get clear  
Ayo, we out here  
And if the party going on you know we in there  
I'm so sincere
