

# Everything Begins

Talisco

Take the time to look around  
Be proud and raise your head  
Take the time and see again  
Everything Begins

Yes now it's time  
And I'm here by your side  
The heart in your fight  
A time to stay quiet  
Everyone runs  
Everyone runs  
Everyone runs  
Everyone runs

Listen to me  
Softly  
Hear me  
Your time has come

Take the time to look around  
Be proud and raise your head  
Take the time and see again  
Everything Begins

I want you to know  
That you're not gonna lose  
Remind you again

Listen to me  
Softly  
Hear me  
Your time has come

Take the time to look around  
Be proud and raise your head  
Take the time and see again  
Everything Begins
