

Human

Talisco

Time after time
New days are done
Over, it's over
The horses are coming
So you better run
Over, it's over

One day you'll love me again
You'll love me for sure
Who was dragged down by the horses
Down to the end

Human you've been warned
Don't be blind
Human, face up your nature
Spit the devil

One day you'll love me again
You'll love me for sure
Who was dragged down by the horses
Down to the end

Human you've been warned
Don't be blind
Human, face up your nature
Spit the devil
Human you've been warned
Don't be blind
Human, face up the future
Spit the devil
