

June

Talisco

Somebody let me know
You're always there for me
There for me

Hey June
Hey June, it's me
Sometimes I think of you
You come out of the time
Hey June
Hey June, I'm here
Memories bring back to you
Everything stayed the same

I remember
When you looked at me
When we were so young
I remember
When the sun has gone
When we fade away

Somebody let me know
You're always there for me
There for me
No matter what they say
We'll see the deep blue sea
Deep blue sea

Oh, memories
Memories hurt someday
And they go away
Oh, memories
I know I'm not alone
I'm still with your soul

Somebody let me know
You're always there for me
There for me
No matter what they say
We'll see the deep blue sea
Deep blue sea

Somebody let me know
You're always there for me
There for me
No matter what they say
We'll see the deep blue sea
Deep blue sea
