

# Multi Heaven

Talisco

I'm gonna leave, I'm alive  
You're my cause, you're my soul  
You're my cause, you're my soul  
You're my flashlight

I'm still alive, and in steel  
You're my cause and my soul  
All my breaths, all my core  
You're my flashlight

Get me right, all I need is to see  
And I see  
Maybe I'm a fool, I am rash  
Head on aright

Praise the soul

I saw a women in the multi heaven  
In the multi heaven, in the multi heaven  
I saw a women in the multi heaven  
In the multi heaven, in the multi heaven

I'm gonna die on a lie  
To my name for your soul  
To my name for your soul  
Oh my flashlight

I'm gonna fall in the run  
For the curse of my soul  
For the curse of my soul  
Oh my flashlight

Get me right, all I need is to see  
And I see  
Maybe I'm a fool, I am rash  
Head on aright

Praise the soul

I saw a women in the multi heaven  
In the multi heaven, in the multi heaven  
I saw a women in the multi heaven  
In the multi heaven, in the multi heaven

Flashlight  
You're my flashlight  
You're my flashlight  
You're my flashlight

Praise the soul

I saw a women in the multi heaven  
In the multi heaven, in the multi heaven  
I saw a women in the multi heaven  
In the multi heaven, in the multi heaven
