Shadows

Talisco

Millions of times, I've seen what you could do
But shadows shine and keep their eye on you
A line is running through my hand
It's freedom within you within me

I'm gonna show you
That your dreams are made of breaths
That your soul is made of gold
I'm gonna tell you
I've seen great men say hello
When the blue lights turn down low

I wanna live fast
I want more and more and I want it fast
The clock is the sign
I want more and more and I want it fast
I feel it, it's so good
I'm a stranger and color fills my way

What kinds of days and dreams am I gonna keep
Maybe the one where I wake up and dream again
For all the lovely things that I'm gonna lose
Eternally, I'm a stranger and I'll color all my way

I'm gonna show you
That your dreams are made of breaths
That your soul is made of gold
I'm gonna tell you
I've seen great men say hello
When the blue lights turn down low

I wanna live fast
I want more and more and I want it fast
The clock is the sign
I want more and more and I want it fast
I feel it, it's so good
I'm a stranger and color fills my way

I wanna live fast
I want more and more and I want it fast
The clock is the sign
I want more and more and I want it fast
I feel it, it's so good
I'm a stranger and color fills my way
